animal biology pdf -  
Animal rights is the idea in  
which some, or all,  
non-human animals are  
entitled to the possession of  
their own lives and that  
their most basic  
interests—such as the need  
to avoid suffering—should  
be afforded the same  
consideration as similar  
interests of human beings.

GMT Animal rights -  
Wikipedia - Animal testing,  
also known as animal  
experimentation, animal  
research and in vivo testing,  
is the use of non-human  
animals in experiments that  
seek to control the variables  
that affect the behavior or  
biological system under  
study. Animal testing -  
Wikipedia - Adaptation is  
the evolutionary process  
where an organism  
becomes better suited to its  
habitat. This process takes  
place over many  
generations. It is one of the  
basic phenomena of  
biology. Adaptation -
